NANCY PERALES

The wonder of hormone pellets

Perales suddenly couldn't keep up with her family's busy lifestyle anymore.

THE WONDER OF HORMONE PELLETS

Nancy Perales needs to to nurture her energy and vitality. She is a devoted grandparent to her triplet grandsons and twin granddaughters. In addition, she has supported her family as they expanded their business and navigated the demands of daily life.

"I want people to know how great EvexiPEL is and to give it a try.

EvexiPEL's the one; the number one pellet therapy on the market."

– Nancy Perales

At 48, Nancy's energy plummeted, her anxiety skyrocketed, and she had hot flashes and body pain. She reached an age where many people's hormonal health worsens.

"After my hormones drastically dropped, I went through a year of anxiety and panic attacks," Nancy said. "With little knowledge about hormones, I asked God to give me a solution."

Then, she discovered hormone replacement therapy.

"At the time, [the pellet provider] was the cream of the crop," Nancy said.

With [this pellet provider], she began to feel more like herself: energized and focused. She encouraged her husband to start pellet therapy for sex drive and unwanted weight gain.

For fifteen years, Nancy and her husband, who started taking the pellets years after her, were patients of pellet therapy with few issues. But something changed.

As Nancy and her husband's symptoms began to reappear, in addition to new side effects, they decided to explore other hormone pellet providers.

EVEXIPEL, A GODSEND

As a woman of faith, Nancy asked God for a path forward.

"The Holy Spirit told me he would give me a longer lasting, pure delivery system," Nancy said.

"He showed us EVEXIAS and the EvexiPEL Method, so I switched."

Nancy was nervous about switching to something new after 15 years of taking one product. Trusting in the Lord and hoping for a better treatment, she made an appointment with Terri DeNeui, DNP, APRN, ACNP-BC, founder of EVEXIAS Health Solutions and the creator of the EvexiPEL Method.

"I wasn't sure she was going to see me because I was with

Dr. Terri DeNeui

Founder of EVEXIAS Health Solutions,
and Creator of the EvexiPEL Method.

"I did not know anything about hormones. They dropped drastically. I was probably considered a worst case scenario. I went through a full year of full blown anxiety and panic attacks," said Perales. "I prayed and prayed and prayed a lot and asked God to please show me somebody that could help."

- Nancy Perales

another major competitor for 15 years," Nancy said. "However, the timing was perfect because she had enough room for me."

Dr. DeNeui greeted her with an open mind and a sincere desire to help. Her demeanor and the calm, positive atmosphere of EVEXIAS Medical Centers in Southlake, Texas, immediately set Nancy at ease.

"Dr. DeNeui cares about her clients and the pellets, which helps her make an impact," said Nancy. "Our connection was strong from the beginning."

Once Nancy got her first pellet using the EvexiPEL Method under Dr. DeNeui's care, she was hooked.

A SMOOTH OPERATING PELLETT

After her insertion using the EvexiPEL Method, Nancy noticed Dr. DeNeui's unique way of inserting the pellet. Additionally, she saw the "rollercoaster effect" that she experienced under the care of the previous pellet provider disappear.

"Dr. DeNeui puts the pellets in differently, so the way it dissolves is more consistent," Nancy said. "The hormones move continuously through the body, and if there is a drop, it is gradual over time."

KEY BENEFITS EXPERIENCED

Consistent hormone dosing throughout treatment

Increased energy

Reduced anxiety

Relieves hot flashes

Reduces aches and pains

Counteracts unwanted weight gain

Caring, knowledgeable practitioners

Superior insertion method

Effective, high-quality nutraceuticals

Nancy noticed the "EvexiPEL experience" operated cleanly and didn't create the adverse side-effects she experienced with other hormone replacement methods. She emphasized the difference in provider care, mentioning Dr. DeNeui's ability to listen closely and adjust treatment based on her feedback.

SPREADING THE WORD ABOUT EVEXIAS

Nancy was over the moon about her experience at EVEXIAS and the EvexiPEL Method and has referred her family members to the clinic.

Her husband recently began pellet therapy treatment with Dr. DeNeui to help improve his energy levels and mental health. He is also on a regimen of EVEXIAS nutraceuticals to support gut healing and health.

The EVEXIAS nutraceuticals that support gut health, like GI Guard and Active Probiotic ND 50, have helped Nancy's husband get rid of stomach cramps, lose weight, and improve his digestion.

Nancy's husband, daughter, and son-in-law are in the early stages of EvexiPEL therapy. She encourages them to keep working with Dr. DeNeui.

"There's a period where the body needs to adjust, so it can take time to find your stride," Nancy said. "It is important to do the follow-up labs until you find your 'normal' again."

FUTURE OUTLOOK

Nancy and her husband have continued integrating other EVEXIAS nutraceuticals into their routines, including ADK, Iodine Complete, and Thyroid Support. Nancy especially loves the Thyroid Support as it maintains her adrenals and energy.

She enthusiastically supports Dr. DeNeui's work since it has helped Nancy live her happiest, healthiest life.

"I am active, so those wonderful hormones given by Dr. DeNeui are key," Nancy said.

POTENTIAL WITH EvexiPEL*

NANCY'S STORY is testament to the groundbreaking power of innovations. As a patient, you now have the incredible opportunity to receive personalized, state-of-the-art treatments.
