

Active Probiotic ND 50 contains 9 species of microorganisms from non-dairy sources. Because each strain has an affinity for a different part of the digestive tract, and a unique mechanism of action, a product that delivers multiple strains is preferable to single strain products.*

Active Probiotic ND 50 also contains added Fructooligosaccharides (FOS), a soluble fiber and prebiotic that selectively supports the proliferation of intestinal probiotics for digestive tract health.*

Active Probiotic ND 50 is:

- Guaranteed to contain 52.5 billion CFUs of microorganisms in each vegetarian capsule.
- A non-dairy multi probiotic product to best mimic normal human flora.*

Recommended For:

- Individuals who are lactose intolerant*
- Normalizing digestion*
- Supporting regularity*
- Urologic support*
- Immune system support*

About the Formula

- *Lactobacilli* (*L. acidophilus*, *L. rhamnosus*, *L. casei*, *L. salivarius*) are located in the small intestine and produce lactic acid. Many strains of bacteria from the *Lactobacillus* family have been shown to support regularity, urogenital and vaginal health, production of the lactase enzymes and protect the gut lining from unwanted materials.*
- *L. salivarius* is a strain of beneficial bacterial that has been shown to resist low pH conditions. It has also been shown to support immune system function by modulating certain cytokines (IL-10 and IL-12).* In vitro studies have shown that *L. salivarius* strongly adheres to human epithelia cell lines. This interaction with the mucosa demonstrates its support of the intestinal immune system.*

- *Bifidobacteria* (*B. breve*, *B. longum*, *B. bifidum*) are located in the colon and produce lactic and acetic acids, making the gut a very inhospitable place for unwanted materials. *Bifidobacteria* have been shown to promote regularity.*
- *Streptococcus thermophilus* is also a lactic acid producer, which lines the gut wall to provide a barrier from unwanted materials, promotes regularity and produces the lactase enzyme.*
- **Fructooligosaccharides** (FOS) are considered a soluble fiber and prebiotic, which supports the growth of beneficial microorganisms in the intestinal tract.*

Supplement Facts

Serving Size: 1 Capsule

Amount Per Serving

Stabilized Nondairy Probiotic Complex	246 mg
(52.5 Billion CFU) <i>Lactobacillus acidophilus</i> (UALa-01™),	
<i>Lactobacillus plantarum</i> (UALp-05™), <i>Lactobacillus casei</i>	
(UALc-03™), Fructooligosaccharides (FOS), <i>Lactobacillus</i>	
<i>salivarius</i> (UALs-07™), <i>Lactobacillus rhamnosus</i> (UALrh-18™),	
<i>Streptococcus thermophilus</i> (UASt-09™), <i>Bifidobacterium</i>	
<i>breve</i> (UABb-11™), <i>Bifidobacterium bifidum</i> (UABb-10™),	
<i>Bifidobacterium longum</i> (UABI-14™)	

Other ingredients: microcrystalline cellulose, vegetable cellulose (capsule), ascorbyl palmitate, silica.

Warning: If pregnant or nursing, consult your healthcare practitioner before taking this product.

Suggested Use: As a dietary supplement, take 1 capsule once or twice daily, or as directed by your healthcare practitioner.
