

KPV LPT is a highly bioavailable liposomal tablet (lipotab LPT) formulated to support optimal gut health. As a tripeptide that mimics alpha-MSH, a naturally occurring neuropeptide that regulates skin pigmentation, inflammation, and appetite in the body, KPV LPT supports healing and reduces inflammation.

KPV LPT is delivered as safe, chewable liposomal tablets created using nanotechnology. The LPT delivery method uses liposomes, tiny fat-like delivery vehicles that bind with the active ingredients to boost the body's absorption and metabolism of the nutraceutical. KPV LPT may also be used synergistically with BPC-157, another gut-healing peptide.

RECOMMENDED FOR

- Abdominal pain, cramping, or bloating
- Diarrhea or constipation from gut inflammation
- Inflammatory bowel disorders

ABOUT THE FORMULA

- KPV LPT is formulated using the tripeptide called lysine-proline-valine, which exhibits immune protective and anti-inflammatory properties.
- In lab studies, KPV showed the capacity to decrease proinflammatory cytokines like TNF-alpha, IL-6, and NF-kB, which have been linked to inflammatory skin, gut, and vascular conditions. KPV has also shown the potential to support the immune system through its anti-microbial and wound healing capacity. KPV LPT acts on these proinflammatory cytokines without affecting cytokines that have anti-inflammatory properties, like IL-10.
- KPV LPT has also been shown to have an even stronger effect on inflammation than its blueprint peptide, α MSH. Its potential as an anti-inflammatory and wound-healing agent suggests that KPV LPT may be a promising treatment option for inflammatory bowel disorders, including ulcerative colitis and Crohn's disease.

SUPPLEMENT FACTS

Serving Size: 1 tablet

Amount Per Serving

Oral liposomal KPV acetate peptide, 250 mcg (micrograms) per LPT.

Other Ingredients: Dextrose, Dicalcium Phosphate, Sunflower Lecithin, Beta Cyclodextrin, Silicon Dioxide, Magnesium Stearate.

WARNING: If pregnant or nursing, consult your healthcare practitioner before taking this product.

SUGGESTED USE

As a dietary supplement, chew and swallow 1 liposomal tablet 2 times daily, or as directed by your healthcare practitioner.
